JENGA BCG

Jenga Business Consulting Group (BCG) was founded with the mission of championing technological innovation and the ecosystem of entrepreneurship, by empowering technology start-ups and accelerating their success. By engaging our team of experts in the fields of blockchain, investment banking, venture capital financing, marketing, and management consulting, you will receive valuable support in strategic business planning, implementation and advisory services built on the solid foundation of industry best practice to achieve and sustain your company's success.

There are four business units under the Jenga group:

JENGA SOLUTIONS SINGAPORE

A Singapore based blockchain business consulting and technology service provider working in partnership with Ziggurat Technology China, Jenga Solutions has supported the launch of hundreds of blockchain projects worldwide. We also work closely with selected projects for the long term to achieve their business objectives. On one hand, we provide access to the technical capability of our China team to global companies looking for a high quality blockchain engineering resource to upgrade their business. On the other, we utilise our extensive knowledge and local resources for global companies seeking to enter the Chinese market.

JENGA CORP SINGAPORE

A Singapore ACRA-certified corporate secretarial and accounting service firm focused on providing incorporation and local operational support to global companies choosing Singapore as a launchpad for expanding into Asia. Jenga Corp is committed to providing timely digital solutions that meet the demands of a technology-driven world. Additionally, the knowledge sharing environment under the umbrella of Jenga BCG ensures that Jenga Corp's professionals not only provide specialized

services in their field but are able to tailor them to the wider context of the industry and business needs of our clients.

JENGA ADVISORS LLC USA

A Washington DC-based regulatory strategy firm specifically focused on advising blockchain companies with respect to regulatory-compliant token projects and secondary market listings on trading platforms. Led by CEO Kevin Batteh, who was a former CFTC lawyer, Jenga Advisors leverages the veteran team of Jenga BCG professionals to provide clients round-the-clock, best-in-class advisory services to global clients. Jenga Advisors is the preferred partner of Bittrex International for evaluating and proposing token projects for listing consideration on Bittrex International.

JENGA KOREA

Jenga Korea focuses on the inbound-outbound business opportunities in the Korean market, providing services across Jenga's suite of business solutions - whether to local Korean companies expanding overseas, or global technology and internet companies seeking entry into the Korean market.

Forum VIP Reception Sponsor

RockTree LEX

RockTree LEX is a blockchain professional services platform specializing in providing international legal compliance, transaction execution, overseas financing, token exchange listing and global expansion for top tier blockchain projects.

The LEX team in Beijing, New York and Toronto includes a full team of multi-jurisdictional blockchain lawyers and finance experts that provide a truly global solution to blockchain projects.

Top projects get connected into the LEX international ecosystem of leading investment partners, funds, exchanges and service providers.

Organiser

Singapore University of Social Sciences (SUSS)

SUSS is one of Singapore's six national universities and its mission is to provide lifelong education that equips learners to serve society. Home to more than 14,000 students, SUSS provides an applied education that targets both fresh school leavers and adult learners, with a focus on the social sciences. It adopts a flexible and practice-focused learning approach and offers more than 70 degree programmes in various disciplines. Eligible students taking SUSS's undergraduate programmes enjoy government subsidies and access to government bursaries, tuition fee loans and study loans.

The SUSS FinTech & Blockchain Group is a community of scholars and research fellows that aims to build and develop capabilities and skills in FinTech & Blockchain through the twin engines of education and research. The community provides platforms for exchanges between industry practitioners and SUSS undergraduates, graduate and postgraduate students.

Established in 2016 in SUSS, the community has introduced prominent experts from around-the-world to conduct over 20 seminars and over 15 workshops for students and adult learners at SUSS. Renowned experts who had spoken at our platforms include Vitalik Buterin of Ethereum Foundation, Zooko Wilcox of ZCash, Roberto Capodiecici of Blockchain Zoo, and the likes. This community network has 13 scholars and more than 90 fellows, who explore and conduct research on blockchain technology that will bring about financial integration and inclusion.

SUSS offers various courses and programmes in FinTech & Blockchain. The latest additions include the Graduate Certificate in FinTech, the Graduate Diploma in FinTech, and the Master of Finance (MFIN) part-time programmes.
