刘杨博士:新加坡南洋理工大学网络安全实验室主任, 教授

<https://personal.ntu.edu.sg/yangliu/>

刘杨博士毕业于新加坡国立大学计算机专业, 在新加坡国立大学、美国麻省理工大学(MIT)和新加坡科技设计大学进行过博士后研究工作。

刘杨博士现任新加坡南洋理工大学全职教授, NTU网络安全实验室主任, 新加坡国家卓越可信软件研究中心副主任, 新加坡国家网络安全研发技术审查委员会成员。

在南洋理工大学网络安全实验室, 刘杨博士负责学术研究和工业界的合作。科研方面, 刘杨一直从事网络安全、软件工程、人工智能等方面的研究工作。工业界的合作方面, 领导团队与工业界建立起广泛合作, 其中包括和劳斯莱斯, 华为, 百度, 阿里巴巴, 蚂蚁金服, 惠普建立了相关的合作及成果转化。

刘杨博士兼任微软亚洲学者, 淡马锡特聘研究员Tan Chin Tuan Fellowshi, 提名新加坡总统科研奖, 得到了图灵奖得主Edmund M. Clarke的推荐信, 并于2020年获得新加坡杰青称号。

刘杨博士与清华, 北大, 中科院, 复旦, 天大, 南大, 浙大, 西安交大, 华东师范, 北航和深圳大学有长期合作和互访, 指导的博士生和博士后已经先后任职浙江大学正教授, 华东师范正教授(青千), 复旦大学副教授, 天津大学副教授并获得北洋学者的称号, 中国科学技术大学副教授并获得中科院百人学者称号, 中科院信工所副教授, 牛津大学讲师和Monash大学讲师。

**Blue YANG**  
**Partner & CTO, SlowMist**

Blue Yang is a partner and CTO of SlowMist. SlowMist is a blockchain security firm established in January 2018. The firm was started by a team with over ten years of network security experience to become a global force. Our goal is to make the blockchain ecosystem as secure as possible for everyone. We are now a renowned international blockchain security firm that has worked on various well-known projects such as Huobi, OKX, Binance, imToken, Crypto.com, Amber Group, Klaytn, EOS, 1inch, PancakeSwap, TUSD, Alpaca Finance, MultiChain, Cheers UP, etc.

**DJ Qian Dejun**  
**CEO, Chainge Foundation**

DJ Qian or Dejun Qian is the CEO of FUSION Foundation and Chainge Finance, Co Founder of Anyswap, and the Founder of BitSE. FUSION provides an inclusive solution for integrating cryptocurrencies that exist today and ones that will be issued in the future by connecting centralized and decentralized organizations.

During his last year in his job at IBM, he first found out about cryptocurrencies through his interest in Bitcoin. His background in Computer Science led him to learning more about Bitcoin - reading their whitepaper which he found himself hooked onto the intricacies of the blockchain technology. At this time Qian had friends who mined Bitcoin and Litecoin, and then went on to creating a mine farm; leading to his resignation and marking the beginning of his career in the crypto space.

Qian has been actively spreading his vision in the DeFi space, participating as one of the speakers in the 2022 Blockchain Expo and also taking part in podcasts and interviews online as the representative of Chainge Finance.

He was featured in the 'Zage Blockchain Report' where he shared his thoughts on 'Real World Applications of Blockchain Technology'. He was awarded as the most Innovative CEO for the 'Jiepu Prize'.

**Ivy PENG**  
**Founder, Zillion Intelligence**

**Yuan GAO**  
**Head of Growth, Helium Foundation**

**Henry WANG**  
**Founder, SmartMesh Foundation**

My drive and vision is Universal Connectivity and Consensus. I defined Web3.0 One World One Web back in 2003 while I was working and pursuing Computer Science PhD studying in Washington University in St. Louis. I built the first cross-lingual (multilingual) social network with Machine Translation (Artificial Intelligence AI and Reinforcement Translation Memory with human feedback called Moki in 2006. I defined Token Switching as the switching mode for Value Internet which is the foundation for Web3.0 and Metaverse.

The first step is to build SmartMesh, (<https://www.smartmesh.io>) the InterPlanetary Decentralized Autonomous Mesh Network with hardware protocol MeshBox and promote the next generation application ecosystems based on Tokenship decentralized social network.

While the status quo of blockchain is Blockchain over Internet, SmartMesh is working on the Internet over Blockchain. Smartmesh supports peer to peer mobile connection without Internet. Off-line crypto currencies payment becomes available with layer2 Photon Network, Spectrum public blockchain within SmartMesh ecosystem.

World Web3 Alliance was founded to promote Web3.0, AI and Metaverse. I suggested the unification of Web3.0 and Web3. The foundation of Web3.0 is data/application separation so

that users data ownership be returned to people instead of the centralized platform. While blockchain and cryptocurrency technologies are developing at a very fast pace, most of ordinary enterprises and people still don't know how to welcome Web3. The reason is there is no killer Web3 application which can attract the majority of people to create, own and monetize their data. MetaLife supports NFT + DeFi + DAO, and it does not only connect people, but it also connect things into Digital world and Metaverse, where new economy models are created, and help back the prosperity of real world life.

**Daniel Spillere**  
**CTO & Co-founder of Hotspotty**

As the CTO and founder of Hotspotty, I am leading a team that is tackling some of the most challenging problems in the decentralized physical infrastructure ecosystem. At Hotspotty, we are driven to revolutionize the way physical infrastructure is managed and maintained, by creating cutting-edge solutions that empower individuals and organizations to take control of their infrastructure in a decentralized and efficient manner. With my experience and expertise, I have been able to steer our company towards innovative solutions and technologies that are driving the industry forward. Together with our talented team, we are pushing the boundaries of what is possible and shaping the future of decentralized infrastructure. Join us on our journey and let's build a better, more connected world.

**Scott McCarthy**  
**Advisor for Titan Network**

**Vivian WOO**  
**Huawei Cloud Vice President (Web3) at Huawei Singapore**

Specialties:

**David Song**  
**Head of Digital Asset & Innovation, Green Link Digital Bank**

David is working on a new intrapreneurship mission to setup the new business unit on digital assets and innovation business. David joined GLDB as the pioneer to setup the digital bank from scratch since Jun 2021.

David was the CIO of River Valley Capital and also served in various roles in Bank of China, Thales(Gemalto), Capgemini and Ericsson before he joined GLDB.

David holds Double Master degrees from SEU China and AIT Ireland and B.Sc in Mathematics from Southeast University. David is a certified SCUBA diving instructor and mountaineer.

**Chris Ngoi**  
**Director of Blockchain, KPMG**

Christopher is a Director with KPMG, focusing on Blockchain/Distributed Ledger Technology and Fintech Innovation. He is highly experienced in Blockchain and Crypto, with significant experience commercialising Blockchain use cases for a tier-1 bank (UBS) and a consortium-led start-up. He is a subject matter expert for the business use cases around Blockchain, Digital Currencies (CBDC, Tokenised Deposit, Stablecoins), Digital Identity, and Tokenisation.

**Roland SCHWINN**  
**Advisor, Sygnum Bank**

Roland Schwinn is an Advisor of Sygnum Singapore. Before joining Sygnum, Roland Schwinn was the Head of Eurex Asia, the derivatives exchange of Deutsche Boerse Group. While there, he also led global corporations with partner exchanges. Further, he served as Director of the Board of the Bombay Stock Exchange (BSE). Before that, he worked as an independent business consultant for Eurex and Deutsche Boerse Group.

He started his career at the Deutsche Terminboerse (the predecessor of Eurex) as Product Development Manager, Strategic Marketing Manager and Client Services Manager.

Roland holds a postgraduate diploma in European business studies from the University of Leicester and a master's degree in business administration from the University of Applied Sciences Trier.

**Dr. XU Weibiao**  
**Senior Lecturer, School of Business, Singapore University of Social Sciences**

Xu Weibiao is a senior lecturer at the Singapore University of Social Sciences. He holds a Ph.D. in finance from the National University of Singapore. His research interests include empirical finance, game theory, and Fintech.

**Lily Z. King**  
**COO, Cobo**

Ms. Zhuo has nearly 20 years experience in structuring and facilitating large-scale buyouts, IPOs, privatization and minority investment deals. In 2021, she joined Cobo, Asia's largest digital asset custody and Defi platform, as the Chief Operating Officer. Before Cobo, she was the General Counsel of PAG, one of Asia's largest alternative investment management firms. Ms. Zhuo spent more than 11 years at PAG and advises both PAG's buyout funds and growth funds. She leverages her hybrid expertise in law, social policy, finance and technology to design the right structure and mechanism that will make complicated deals work.

Ms. Zhuo is also active in fintech and biotech community. She provides legal and business advices to a number of VCs and startups.

Ms. Zhuo is licensed to practice law in both the US and China. But she is more than a lawyer. She spends time exploring the frontier of technology and social change. In 2015 She established a think tank in HK, the CQ Institute, that explores how crypto-equity and smart contract can enable decentralized co-creation at scale, beyond the traditional corporate structure.

卓女士在大型的收购、上市、私有化和股权投资交易领域有超过20年的深厚经验。她近期作为首席运营官加入了亚洲最大的数字资产托管及DEFI平台Cobo。在加入Cobo前，卓女士在亚洲最大

的另类投资管理集团PAG担任法律总顾问，同时支持PAG的并购基金和成长基金逾11年。卓女士拥有跨领域的视野，基于她对法律、社会政策、金融和科技的深刻理解，她总可以想办法为复杂而困难的交易找到最适合的投资架构和机制。

卓女士也活跃在金融科技和生物科技社群中，她为数家科技创业基金和创业型公司提供融资、法律架构、乃至商业模式方面的建议。

卓女士在美国和中国都有律师执照，但她不仅仅是一位律师。她对社会和科技创新方面的研究也充满热情。在2015年，她在香港创立了CQ Institute智库，旨在探索如何利用加密股权和智能合约来促进大规模和去中心化的协作，当前社会的大规模协作往往在公司的架构下完成，但未来的协作很可能是去中心化的，这其中加密股权和智能合约可能扮演关键角色。

**Adrian Clevenot**  
**Digital Assets Markets Lead, PWC Associate Director**

Adrian is an Associate Director in the PwC crypto team based in Hong Kong. He has five years of experience in the digital assets space, acting as the first legal counsel of Eqonex and then helping set up the crypto regulatory function at Worldpay by FIS. Prior to that, Adrian was a finance and private equity lawyer in international law firms in Hong Kong and New York, where he is a member of the NY Bar.

During his career, he has advised numerous institutions on a wide range of legal and regulatory matters. He also advises governments on their regulatory frameworks and digital assets initiatives.

**Henry ZHANG**  
**Founder, DigiFT**

As a finance professional, Henry lives and breathes technology. His passion is supported by his extensive experience and track record in managing international financial institutions. He previously served as the Deputy CEO at Citibank China, Standard Chartered Bank China, and the Greater China CEO at East West Bank. "Technology is a powerful enabler. I see in it the tremendous potential to address numerous pain points in the current financial system. We aim to bridge the gaps between DeFi, CeFi, and traditional finance."

**Dr. Andrzej Gwizdalski**  
**Lecturer, University of Western Australia**

Dr. Andrzej Gwizdalski is a founder, pioneering academic and leading expert in the integration of blockchain technologies within the sustainable Web 3 economy, specialising in blockchain applications for business, community projects and government. His recent research explores green Fintech, sustainable Web3 infrastructure and the adoption of web3 by SMEs. As an internationally recognised blockchain curricula developer and award winning educator at the University of Western Australia Business School, Andrzej blends practical applications of blockchain technologies with interdisciplinary theory and research to educate the next generation of digital economy leaders. As a co-founder and driving force behind the Western Australia Web3 Association (WAWEB3), and a member of the Australian Computer Society, he has championed Web3 technology awareness and adoption in the region with the focus on building strategic partnerships between WA and Singapore in academia, businesses and among governments.

**Daryl Dunbar**  
**Senior Advisor, GreenSquareCD**

Daryl Dunbar from GreenSquareCD, brings to the sustainable Web3 conference a wealth of experience that spans over a quarter-century in the cloud and data center markets, complemented by a rich 35-year background in IT, Telecoms, and Technology sectors. His hands-on expertise in investing, constructing, and managing data infrastructure across four continents positions him as an authority in the field. Daryl's vast international exposure, which encompasses roles in APAC, the US, Europe, and Latin America, has honed his skills in an array of disciplines from technology and finance to cybersecurity and infrastructure, not to mention leadership development and strategic innovation. Before embarking on his global journey, Daryl's career was launched at NASA in the United States, laying a foundation of excellence and pioneering spirit in innovation technologies.

**Daniel Kaines**  
**Head of Risk at Blocksquare**

Daniel Kaines, as the Head of Risk at Blocksquare, stands at the forefront of democratising real estate investment. Blocksquare, celebrated for its pioneering real estate tokenisation infrastructure, empowers Daniel to apply his rich expertise in banking, corporate finance, and derivatives to the novel domain of property investment. By overseeing risk management strategies and leading the innovative Tokelytics initiative, Daniel plays a pivotal role in ensuring the seamless tokenisation of real estate assets. His leadership not only navigates the expanding ecosystem of marketplace operators but also cements Blocksquare's commitment to fostering financial inclusion, breaking down traditional barriers and championing social sustainability.

**Walt Coulston**  
**Founder & CEO of GreenSquareDC**

Walt Coulston, the visionary Founder & CEO of GreenSquareDC, is reshaping the cloud computing sphere with a steadfast commitment to sustainability. His enterprise leads the next generation of data center solutions, harnessing AI infrastructure and GPU-as-a-Service (GPUaaS) to offer resilient, scalable, and cost-effective services to eco-conscious clientele. Walt's strategic leadership in developing the 'Five Pillars to Sustainability™' model has firmly anchored GreenSquareDC as a game-changer in the industry. By fostering robust global partnerships with tech titans such as HPE, Schneider Electric, and NVIDIA, he has adeptly positioned his company at the vanguard of the sustainable GPU cloud services revolution. Joining the sustainable Web3 conference, Walt brings with him a blueprint for a greener, more efficient cloud landscape tailored for the future.

**Shihan FANG**  
**Founder, Regen Supply**

Shihang FANG runs a media company covering regenerative finance. As a senior media professional, she provides basic media training for mentees, including coming up with an elevator pitch on what he/she does. This is especially important for the sustainability sector, where companies are often accused of greenwashing.

**Dr. Abba Garba**

**Delane FOO**  
**APAC Business Development Lead, Blocknative**

Delane is the head of BD, partnership and pre-chain education efforts for Blocknative into the APAC region.

Selected contributions:

- Organised the first MEVday Asia

Responsible for partnerships and clients (Wallets, DeFi Protocols, Searchers, Validators and more) in the region

- Responsible for growth of Blocknative brand awareness building in APAC

About Blocknative:

Blocknative (series A1 stage) is a leading Ethereum block builder and MEV-boost relay operator. The company's real-time infrastructure enables validators and searchers to optimize staking rewards and trading profit. Blocknative's Transaction Orchestration platform prices, previews, distributes and monitors transactions so web3 users can transact with confidence. Blocknative democratizes access to pre-chain data and provides the power to see into the future, improving web3 user experiences and enabling MEV value recirculation. Founded in 2018, Blocknative helps inform and power such forward-thinking projects as Lido, MetaMask, imToken, Curve, Balancer, Ethereum Foundation, Polygon Foundation, and hundreds of others. #ShareTheMEV.

**Stan LOW**
